UKRAINIAN MATHEMATICAL JOURNAL
Volume 22, Numbers 1-6, 1970
(A translation of Ukrainskii Matematicheskii Zhurnal)

Volume 22, Number 1 January-February, 1970

	Engl.	Russ.
Investigation of Bounded Solutions of Nonlinear Irregularly Perturbed Systems by the Integral Manifold Method – Ya. S. Baris and V. I. Fodchuk	1	3
A Boundary-Value Problem for a Nonlinear System of Differential Equations with Deviating Arguments – Yu. I. Kovach and L. I. Savchenko	9	12
Cauchy Problem for Parabolic Systems whose Coefficients have Slight Smoothness – M. I. Matiichuk and S. D. Éidel'man	18	22
Pairs of Non Self-Adjoint Operators and Operator Hypernodes – A. G. Rutkas	31	37
On a Method for Finding the Characteristic Functions of Fredholm Integral Equations of the Second Kind with a Given Degree of Precision – V. Yu. Sereda	44	53
Periodic Solutions of Systems of n-th Order Differential Equations of Neutral Type with Retarded Argument – B. P. Tkach	54	64
On Asymptotic Splitting of a System of Linear Differential Equations with Slowly Varying Coefficients – N. I. Shkil'	64	76
BRIEF COMMUNICATIONS		
Integral Representations of Invariant Hermitian Functionals – L. M. Korsunskii and Yu. S. Samoilenko	77	91
Limit Theorems for Mesh- and Absolutely Continuous Random Variables Linked by a Markov Chain – A. N. Litvinov	82	97
Absolute Continuity of Measures Corresponding to Series of Independent Stable Random Variables upon Linear Transformations of the Space – R. Ya. Maidanyuk	87	102
On the Approximate Evaluation of Singular Integrals with a Summable Density by a Mechanical Quadrature Method – Dzh. G. Sanikidze	91	106
On the Solvability of Mixed Problems for One-Dimensional Quasilinear Hyperbolic Equations – P. E. Sobolevskii and V. A. Pogorelenko	98	114
Theory of Analytic Positive and Single-Sheeted Mappings by Means of Generalized Entire and Meromorphic Functions with a Finite Number of Zeros and Poles – P. G. Todorov	104	121
Determination of the Number of Single-Valued Mappings Containing a Given Equivalence – A. E. Yurtsun'	111	129
CHRONICLES		
Review of Reports at the International Conference on Nonlinear Vibrations, Kiev – Yu. A. Mitropol'skii and V. M. Shevelo	114	132

Volume 22, Number 2 March-April, 1970

Great Leader and Scientist (on the 100th Anniversary of V. I. Lenin's Birthday)	125	147
On the Theory of the Hammerstein Equation – P. P. Zabreiko and A. I. Povolotskii	127	150
On the Spectrum of a System of Differential Equations – N. M. Kostenko	139	163

	Engl.	Russ.
Locally Compact Abelian Groups of Finite Rank – Z. I. Moskalenko	148	174
On the Theory of Linear Multidimensional Differential Equations with Periodic Coefficients – A. I. Perov and V. G. Zadorozhnii	155	182
On the Problem of Uniformly Approximate Replacement of a Curved Arc by Circular Arcs – E. Ya. Remez and S. S. Levin	161	189
Some Problems Associated with the Boundedness of Solutions – V. P Skripnik	173	203
On Oscillations with Multiple Periods in Nonlinear Systems – É. I. Smolyar	183	214
On the Theory of Polycyclic Groups – V. P. Shunkov	190	222
BRIEF COMMUNICATIONS		
Approximate Solution of the Problem of Jet Flow Past an Arc of a Curve – P. D. Karpenko	200	232
Weakened Axiom of Local Commutativity – V. D. Koshmanenko	204	236
Periodic Solutions of Nonautonomous Quasilinear Systems with Delay in the Case of Multiple Roots of the Amplitude Equations – V. V. Misak	210	242
Representing Positive-Definite Generalized Kernels in Terms of Eigenfunctions of Partial Differential Expressions – Nguen tkhi Tam Bak	214	247
Approximate Solutions of Certain Nonlinear Integral Equations – L. P. Pekova	218	252
On a Method for Obtaining Asymptotic Formulas for an Extremal Sequence of Regular Monotonic Polynomials – G. A. Sogomonova	221	255
Existence Theorems for the Solutions of Integro-Differential Equations with a Deviating Argument Dependent on the Solution – L. G. Fedorenko	225	258
The Rate of Convergence of (C, 1)-Means of Orthogonal Series – E. A. Storozhenko and Yu. M. Shmandin	230	264
CHRONICLES		
Defense of Dissertations at the Academic Council of the Institute of Mathematics, Academy of Sciences of the USSR 1968-1969. Dissertations for the Degree of Doctor of Physicomathematical Sciences – I. G. Kozubovskaya	240	276
New Elections to the Mathematics, Mechanics, and Cybernetics Division of the Academy of Sciences of the Ukrainian SSR – A. V. Moskalyuk	250	283

Volume 22, Number 3 May-June, 1970

Extremal Problems for Certain Classes of Functions One-Sheeted in the Half Plane – I. A. Aleksandrov and V. V. Sobolev	253	291
Estimate of the Total Error in Minimizing a Quadratic Functional in a Ball – M. D. Babich	267	308
On Some Properties of a Kernel, Depending on a Difference, of an Integral Operator Acting from the Orlicz Space L^*_M into the Orlicz Space $L^*_{M_1}$ – A. A. Bloshchitsin and D. V. Salekhov	278	321
Baire Sets in Complete Topological Spaces – M. M. Choban	286	330
BRIEF COMMUNICATIONS		
The Spectral Matrices of a Second Order Difference Expression in the Half-Plane – A. A. Androshchuk	296	343
Some Extremal Properties of Functions of Class H_1 – Ya. L. Geronimus	303	350
On the Distribution of the Sequence of Discards of a Generalized Poisson Process on a Phase Straight Line – I. I. Ezhov	308	355
New Expressions Which are Convenient for the Description of Geometrical Figures – O. V. Zenkin	313	361
Some Localization Theorems – A. S. Zinov'ev	316	364

	Engl.	Russ.
Solving of Problems of a Complex x-Analytic Potential for a Spherical Circular Disk – A. A. Kapshivyi and N. V. Nogin	321	369
A Bogolyubov Type Theorem for Hyperbolic Equations – M. Kiselevich	326	374
On the Approximate Solution of a Nonlinear System of Differential Equations of Higher Order with a Retarded Argument – Yu. I. Kovach	332	380
On the Bogolyubov–Mitropol'skii Averaging Principle for a Class of Second Order Hyperbolic Equations – V. G. Kolomiets and G. P. Khoma	340	388
On a Problem of Mass Servicing Taking Account of Reliability – M. T. Korniichuk	345	393
Construction of Solutions of Systems of Differential Equations in the Region of Asymptotic Stability – A. A. Martynyuk	354	403
Improvements of Certain Estimates of the Behavior at Infinity of Solutions of the Homogeneous Schrödinger Equation with a Potential Increasing in a Part of Space – Yu. B. Orochko	363	412
Toward a Theory of Univalent Conformal Mappings Defined by Meromorphic Functions with Simple Poles and Positive Residues – P. G. Todorov	366	416
A Pure Prediction of Gaussian Process – D. Shagdar	371	422

Volume 22, Number 4 July-August, 1970

On the Generalized Power Problem of Moments – Yu. M. Berezanskii	375	435
On the Application of Linear Methods to the Approximation by Polynomials of Functions which are Solutions of Fredholm Integral Equations of the Second Kind. I. – V. K. Dzyadyk	394	461
Exact Upper Bound for Approximations on Classes of Differential Periodic Functions Using Rogosinski Polynomials – V. K. Dzyadyk, V. T. Gavrilyuk and A. I. Stepanets	411	481
Minimization of Numerical Algorithms for Solving Arbitrary Systems of Linear Equations – N. I. Kokovkin-Shcherbak	422	494
The Averaging Principle for Equations with Heredity – V. V. Strygin	430	503
A Regularized Newton's Method for Solving Nonlinear Boundary Problems – V. E. Shamanskii	440	514
BRIEF COMMUNICATIONS		
Self-Adjoint Property of Operators Generated by a General Elliptic Expression and Inhomogeneous Boundary Conditions Prescribed on Part of the Boundary of a Bounded Region – V. V. Barkovskii	451	527
Subgroups of Norms in Elliptic Curves Defined Over a Local Field – O. N. Vvedenskii	456	531
General Solution of the Space Problem of Elasticity Theory for Curvilinear Transversal Isotropic Media – V. M. Deev and V. P. Mal'khanov	459	534
Lacunary Solutions and Generalized Solutions of Differential Equations with Diverging Arguments – L. A. Zhivotovskii and S. B. Norkin	467	542
On Nonstationary Distributions of Queue Lengths and Waiting Times of Unreliable Single-Queue Service Systems – V. A. Ivnitskii	474	549
Polynomial Approximations of the Solutions of Nonlinear Equations – A. A. Martynyuk	480	557
Angular Displacement of the Boundary in a Class of One-Sheeted Conformal Mappings – P. M. Tamrazov	486	563
Extensions and Nilpotent Products of Strongly Π-Complete, ΠSR-, and ΠSD-Groups – Hoang Ky	489	566

Volume 22, Number 5 September-October, 1970

On the Application of Linear Methods to the Approximation by Polynomials of Functions Which Are Solutions of Fredholm Integral Equations of the Second Kind. II – V. K. Dzyadyk	495	579
The Carleman Boundary Value Problem on a Riemannian Surface with an Edge – É. I. Zverovich and V. A. Chernetskii	506	591
On the Averaging Principle for Hyperbolic Equations along Characteristics – Yu. A. Mitropolskii and G. P. Khoma	513	600
Equations with Transformed Arguments of Neutral and Superneutral Type – V. P. Skripnik	523	611
The (c)-Property of Positive Polynomial Voronov Methods and Theorems of Tauberian Type – L. F. Targonskii	534	625
Diameter-Critical Graphs – N. P. Khomenko and N. A. Ostroverkhii	544	637
Conditions for Optimality in Hilbert Spaces – V. V. Khomenyuk	553	647
ANNIVERSARIES		
Nikolai Petrovich Sokolov (On His 80th Birthday) – V. P. Vel'min, Yu. A. Mitropol'skii, Yu. D. Sokolov, and S. N. Chernikov	562	657
BRIEF COMMUNICATIONS		
Range of Values of the Derivative on the Class of Holomorphic Single-Sheeted Functions – I. A. Aleksandrov and S. A. Kopanev	565	660
On the Asymptotic Distribution of a Functional of the Simplest Symmetric Random Walk on a Line – R. V. Boiko	570	665
Applicability of the Method of Averaging for Investigations of Nonlinear Vibrations of Rectangular Plates – P. A. Bondarev	575	669
Asymptotic Properties of Positive Methods for the Summation of Double Fourier Series – V. P. Bugaets	579	673
On the Mutual Changes of the Modulus of a Regular Function with Positive Real Part and the Modulus of Its Derivative – V. Ya. Gutlyanskii	585	680
On an Inclusion Property of Summation Methods Defined by Normal Matrices – N. A. Davydov	591	685
Gronwall–Bellman Differential-Matrix Inequality – V. N. Laptinskii	596	690
On the Averaging of Systems of Nonlinear Integro-Differential Equations on the Infinite Line – T. V. Melikidze	598	692
Diffusion by Means of Random Parameters – L. V. Sergeeva and N. I. Teterina	601	695
A Description of Semigroups Relatively Free in Manifolds of Nilpotent Semigroups – M. S. Trepetin	603	697
A Theorem on Averaging for Hyperbolic Systems of First Order – G. P. Khoma	605	699
Uniform Approximation in Classes of Continuous Functions by Polynomials in the Haar System – N. P. Khoroshko	611	705
On the Stability of the Trivial Solution of Stochastic Linear Systems – E. F. Tsar'kov and V. K. Yasinskii	619	713

Volume 22, Number 6 November-December, 1970

Friedrich Engels	623	723
Groups in which Every Decomposable Subgroup is Invariant – F. N. Liman	625	725
On a Rapidly Converging Iterational Process for Solving Differential Equations and Some of Its Applications – A. A. Martynyuk	632	734
Some Tauberian Type Theorems for Ratios of Functions – I. P. Pobyvanets	646	749

	Engl./Russ.	
Functions of Multidimensional Matrices and Their Applications for the Solutions of Linear Systems of Partial Differential Equations – N. P. Sokolov	657	762
Remainder Terms of Some Multi-Dimensional Approximation Formulas – I. A. Ézrokhi	675	783
ANNIVERSARIES		
Mikhail Alekseevich Lavrent'ev (On His 70th Birthday) – Yu. A. Mitropol'skii, I. Z. Shtokalo, and P. F. Fil'chakov	690	801
BRIEF COMMUNICATIONS		
On Self-Adjoint Semibounded Abstract Differential Operators – L. I. Vainerman and M. L. Gorbachuk	694	806
On Bases of the Set of Graphs with Given Coefficient of Internal Stability – N. G. Vinnichenko	697	809
Simplicity of Certain Entire Functions – A. A. Gol'dberg and G. S. Prokopovich	701	813
Application of Asymptotic Methods for the Construction of the Solutions of Quasilinear Distributed Systems with Time Lag – V. A. Dombrovskii	705	817
On a Theorem of Beurling and Carleson – V. S. Korolevich	710	823
On the Small Parameter Method – V. N. Laptinskii	715	828
Existence and Properties of an Almost Periodic Solution to a System of Nonlinear Integrodifferential Equations in Hilbert Space in the Neighborhood of an Equilibrium Point – T. V. Melikidze	720	834
Ternary Physical Structure of Rank (3,2) – G.G. Mikhailichenko	723	837
A Dirichlet Type Problem for Hyperbolic Equations with Constant Coefficients – B. I. Ptashnik	727	841
Mappings Realized by Solutions of Degenerate Elliptic Systems – E. A. Shcherbakov	733	848
BOOK REVIEWS		
N. P. Erugin – Study Manual for the General Course in Differential Equations – Reviewed by I. Z. Shtokalo, P. S. Bondarenko, D. I. Martynyuk, I. A. Pavlyuk, and N. I. Shkul'	737	852
